You know your love, has always been me  
Every minute of the day  
You know darlin' it makes no difference, ever  
What the season may be

We take a walk in the spring time  
To see the flowers in bloom  
Because I know that you're my only girl  
I'll take you on a lover's honeymoon

I'll take you on a lover's honeymoon  
That's the way I want it to be  
Let every season of every year

Seem like the first one to me

And when it rains in the summer  
I see a rainbow in your face  
Just like the leaves when it turns autumn  
Our love all right in place

And whenever cold hard a-winds start blowing  
Bringing in old weather songs  
I can hold you close, honey  
Listen to me, now  
That's the way I want it to be  
That every season not every year  
Seem like the first one to me.

(First one to me).
