

# JESS GLYNNE, Friend Of Mine

One word, one fight  
Took a wrong turn on the wrong night  
I hope you're doing alright  
'Cause I know what it feels like

Can't take back what I did yesterday  
That one time was my bad, my mistake  
Hold my hands up, I was wrong  
You showed love in every single way  
Was in my palm and threw it all away  
Hold my hands up, I was wrong

Darling, even after all this time  
Will you still be a friend of mine?  
We said some things and we crossed the line  
But will you still be a friend of mine?

Friend of mine  
Friend of mine  
(Oh-oh-oh)

My name on your lips  
Can't erase your kiss  
And I hate to be the one to say this  
But no longer can you take the risk

Can't take back what I did yesterday  
That one time was my bad, my mistake  
Hold my hands up, I was wrong (I-I-I-I, I was wrong)  
You showed love in every single way  
Was in my palm and threw it all away  
Hold my hands up, I was wrong

Darling, even after all this time  
Will you still be a friend of mine?  
We said some things and we crossed the line (Oh, we crossed the line)  
But will you still be a friend of mine? (Oh-oh)

Friend of mine  
Friend of mine

Know (I wanna know, I wanna know)  
Know (Even after all this time)  
Know (I wanna know, I wanna know)  
Know (Ooh-ooh)

Even after all this time  
Will you still be a friend of mine?
