

Jess Klein, Goodbye, Goodbye

Today the spark went from your eye
There was a seven second pause
Then I saw lightning in the sky

If you dont love me Ill say
Goodbye, goodbye
Goodbye, goodbye
Ill go do something else with my life

You dont know when Im true or false
Maybe I secretly feel set free
Maybe you took the load off me

If you dont love me Ill say
Goodbye, goodbye
Goodbye, goodbye
Ill go do something else with my life
Ill take myself out to the
Big world, big world
Big world, big world
While I cry inside

Hey, goodbye, goodbye
Goodbye, goodbye
Ill go do something else with my life
Ill take myself out to the
Big world, big world
Big world, big world
While I cry
While I cry
While I cry inside
