

# Jess Klein, I Sure Would

Tell you what Id like to do  
Id like to put my hands on you  
Push you up against a wall  
Tell my friends all that I stole  
Give you my body and keep my soul

Tell you what Id like to try  
Let you look into my eyes  
Ill stoke the flames and watch them rise  
Turn your need to raging fire  
Pull you right down on the floor

I sure would, I sure would  
I sure would, I sure would

Lets talk easy, lets talk slow  
Talk the whole night do-si-do  
Pressure comes and pressure goes  
You can never really know  
Your hand brushes cross your throat

I sure would, I sure would  
I sure would, I sure would

Well, heres a grain of salt babe  
I cant let go what I take  
So I guess its best you dont stay

I know what youd like to see  
Jane play knick-knack on your knee  
Beads of sweat form on your brow  
Try to maintain calm somehow  
How you gonna do that now?

Tell you what Id like to have  
You under my thumb like a guitar in my hand  
Just to feel my hands on you  
And know what I could make you do  
For me  
And for you  
Have my cake  
Eat it too

I sure would, I sure would  
I sure would, I sure would  
I sure would, I sure would  
I sure would, oh, oh  
I sure, I sure, I sure would  
I sure would, I sure would
