

Jess Klein, Love Is Where You Find It

I wanted love; all I had was pain
I wanted love; all I had was pain

I went for a walk to lose my disease
I heard a little voice say look up at the trees
I couldn't really tell you what happened
But a slow smile came over me

Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it

So now I'm driving my car down the long highway
I'm driving my car down the long highway
To take the wheel and let down my hair
And do as I feel and have no cares
Inside and all around me there'll be air

Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it

I've lost a lot of love
I've lost a lot of love
But this is the kind that I find in the trees

Driving my car down the long highway
Driving my car down the long highway
The rest of this can fall by the wayside
That's gonna be me
That's gonna be me, yeah, yeah

Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
I've lost a lot of love
I've lost a lot of love
But this is the kind that I find in the trees

Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
Love is where you find it
I'm not gonna fight it
Love is where you find it
