

# Jesse McCartney, Body Language

Ooo, that body's like music to my ear  
Ooo, that body's like music to my ear  
Ooo, that body's like music to my ear  
'Cause what you want is right here  
Oh she, oh she so international  
The way, the way she get it on the floor  
I'm tryin', I'm tryin' to holler at you  
I want to get to know you better  
Parlez vous francais?  
Konichiwa  
Come and move in my way  
Hey, little chica from Guadeloupe  
That thing you got behind you is amazing  
Now, I don't speak Spanish, Japanese or French  
But the way that body's talkin' definitely makes sense  
It's her, her body, her body, her body language  
It's her, her body, her body, her body language  
The way she moves around  
When she grinds to the beat  
Breaking it down articulately  
It's her, her body, her body, her body language  
It's her, her body, her body, her body  
That make me want to say hey...('ey!)  
Hey...('ey!)  
Hey...('ey!)  
It's her, her body, her body, her body language  
C'mon  
Shorty, let me whisper in your ear  
Tell you everything you wanna hear  
You got my vote: Hottest Girl of the Year  
Let's have a celebration, baby  
Parlez vous francais?  
Konichiwa  
Come and move in my way  
Hey, little chica from Guadeloupe  
That thing you got behind you is amazing  
Now, I don't speak Spanish, Japanese or French  
But the way that body's talkin' definitely makes sense  
It's her, her body, her body, her body language  
It's her, her body, her body, her body language  
The way she moves around  
When she grinds to the beat  
Breaking it down articulately  
It's her, her body, her body, her body language  
It's her, her body, her body, her body  
That make me want to say hey...('ey!)  
Hey...('ey!)  
Hey...('ey!)  
It's her, her body, her body, her body language  
C'mon  
I'm lifting up my voice to say  
You're the hottest girl in the world today  
The way you shake  
You got me losing my mind  
You're banging like a speakerbox  
Turn around; the party stops  
Universal lady, let me take you away  
Now, I don't speak Spanish, Japanese or French  
But the way that body's talkin' definitely makes sense now  
It's her, her body, her body, her body language  
It's her, her body, her body, her body language  
It's the way she moves around  
When she grinds to the beat  
Breaking it down articulately

It's her, her body, her body, her body language  
It's her, her body, her body, her body  
You make me want to say hey...('ey!)  
Hey...('ey!)  
Hey...('ey!)  
It's her, her body, body, body language  
C'mon  
Ooo, that body's like music to my ear  
Ooo, that body's like music to my ear  
Ooo, that body's like music to my ear  
'Cause what you want is right here
