

# Jesse McCartney, Second Star To The Right

Ready (the second star)  
Here we go  
Dream me away to the stars never stop  
You and me, me and you, on our way to the top.  
Spread your wings we can fly to the stars,  
In the sky to the left is the moon, is the star on the right.  
And I can meet you, I can meet you, I can meet you.

The second star to the right,  
Shines in the night for you.  
To tell you that the dreams you plan,  
Really can come true.

The second star to the right,  
Shines with a light that's rare.  
And if it's Never Land you need,  
It's light will lead you there.

Twinkle, twinkle, little star (little star)  
So I'll know (I will know) where you are (where you are.)  
Gleaming in the skies above (ohhh)  
Lead me to the land I dreamed of.

And when our journey is through,  
Each time we say good night, (say goodnight)

We'll thank the little star that shines,  
The second from the right. (Second from the right)

The second star, yeahhh ohhh  
The second star, woahhh

Dream me away to the stars never stop  
You and me, me and you, on our way to the top.

Twinkle, twinkle, little star  
So I'll know where you are (where you are.)  
Gleaming in the skies above (ohhh)  
Lead me to the land I dreamed of.

And when our journey is through,  
Each time we say good night, (we say goodnight)  
We'll thank the little star that shines,  
The second from the right (second from the right)

The second star, yeahhh  
The second star, woahhh

Every time you need its light, it'll be there  
To show the dreams you plan can come true.
