

# Jesse McCartney, Superbad

She's a miracle, she got everybody talking  
She don't care at all  
Watch the way she's walking  
Ooh, she's a classy girl  
Got danger in her touch,  
She should come with a warning  
When she struts her stuff, every head is turning  
Ooh, she's a classy girl

My girl is superb, super-stacked  
Got no time for photographs, watch out!  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!  
She's divine all the time  
And everything she does, it's always by design  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!

Treat her like a Queen,  
Don't need no permission  
Sexy's her routine, she's the definition  
Ooh, she's a classy girl

My girl is superb, super-stacked  
Got no time for photographs, watch out!  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!  
She's divine all the time  
And everything she does, it's always by design  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!  
You feel me?!

My girl's a supersonic sex machine  
She'll put that technicolor in your screen  
Yeah, she's a super-psychedelic dream  
My girl is super-super-superbad

My girl is superb, super-stacked  
Got no time for photographs, watch out!  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!  
She's divine all the time  
And everything she does, it's always by design  
My girl is superb  
That's a fact, knock your train right off the track  
Watch out!
