

Jesse McCartney, The Second Star To The Right

Ready...here we go...

The Second Star

Dream your way to the stars in the sky
you and me, me and you on our way to the top
Spread your wings, we can fly to the stars in the sky
To the left to the moon is the star on the right
And I can meet you, I can meet you, I can meet you

The Second Star to the right
shines in the night for you
To tell you that the dreams you plan
Really can come true

The second star to the right,
Shines with a light thats rare.
And if its Never Land you need,
Its light will lead you there.

Twinkle, twinkle, little star (little star)
So Ill know (I will know) where you are (where you are.)
Gleaming in the skies above (ohhh)
Lead me to the land I dreamed of.

And when our journey is through,
Each time we say good night, (say goodnight)
Well thank the little star that shines,
The second from the right. (Second from the right)

The second star, yeahhh ohhh
The second star, woahhh

Dream me away to the stars never stop
You and me, me and you, on our way to the top.

Twinkle, twinkle, little star
So Ill know where you are (where you are.)
Gleaming in the skies above (ohhh)
Lead me to the land I dreamed of.

And when our journey is through,
Each time we say good night, (we say goodnight)
Well thank the little star that shines,
The second from the right (second from the right)

The second star, yeahhh
The second star, woahhh

Every time you need its light, itll be there
To show the dreams you plan can come true.
