

# Jesse McCartney, The Second Star To The Right

Ready...here we go...

The Second Star

Dream your way to the stars in the sky  
you and me, me and you on our way to the top  
Spread your wings, we can fly to the stars in the sky  
To the left to the moon is the star on the right  
And I can meet you, I can meet you, I can meet you

The Second Star to the right  
shines in the night for you  
To tell you that the dreams you plan  
Really can come true

The second star to the right,  
Shines with a light thats rare.  
And if its Never Land you need,  
Its light will lead you there.

Twinkle, twinkle, little star (little star)  
So Ill know (I will know) where you are (where you are.)  
Gleaming in the skies above (ohhh)  
Lead me to the land I dreamed of.

And when our journey is through,  
Each time we say good night, (say goodnight)  
Well thank the little star that shines,  
The second from the right. (Second from the right)

The second star, yeahhh ohhh  
The second star, woahhh

Dream me away to the stars never stop  
You and me, me and you, on our way to the top.

Twinkle, twinkle, little star  
So Ill know where you are (where you are.)  
Gleaming in the skies above (ohhh)  
Lead me to the land I dreamed of.

And when our journey is through,  
Each time we say good night, (we say goodnight)  
Well thank the little star that shines,  
The second from the right (second from the right)

The second star, yeahhh  
The second star, woahhh

Every time you need its light, itll be there  
To show the dreams you plan can come true.
