

# Jesse Sykes, Troubled Soul

My heart knows  
It needs protection  
While it grows

Somebody show me  
A place i can go where love's around  
A trip to the ocean  
I just need to get far from town

There's no way around this  
No way around this  
No way around this troubled soul

Now you're gone  
And i stand, i stand  
Between time

Somebody show me  
A place i can go where love's around  
A trip to the ocean  
I just need to get far from town
