

# Jessica Andrews, I Do Now

Where in the world did you come from  
Seems like I looked up and there you were  
Didn't think about it then but when I look back I  
believe now  
That miracles do occur

[Chorus]

Cause I can reach up and touch any star in the sky  
Put my arms round the moon if I try  
Never thought I could feel so much love in my life  
No I never thought I'd know how but  
I do now  
Is this a dream or are you real  
I'm trying hard not to lose my cool  
But when you're kissing me  
I just get so lost in the moment  
I hope I'm not acting like some kind of fool

[Repeat Chorus]

Never had no one to miss me  
Never had no one who kissed me like you  
Never had no one who loved me like you  
I can reach up and touch any star in the sky  
Put my arms round the moon if I try  
Never thought I could feel so much love in my life  
No I never thought I'd know how but  
I do now
