

Jessica Andrews, Sunshine & Love

If I had a zillion dollars and the whole
World on a string
Diamonds in my pockets and the power of a king
I don't think I'd be any happier than I am right now
'cause money's only paper, it might buy a lot of stuff
But if money's what your chasing
You won't ever have enough
'cause the best things in life
Might not be free but they sure are cheap

Like sunshine, blue skies and the river on
A hot hot day
Moonlight and a good fight, standing out
In the pouring rain
So many things that money buys
But really nothing I can find
Like sunshine and love

There is something about the moment
When two hemispheres collide
And someone opens up their world and lets
You see inside
And you realize that everything that you've
Been waiting for

For your whole life is standing right there
There ain't nothing like love

Like sunshine, blue skies and the river on
A hot hot day
Moonlight and a good fight, standing out
In the pouring rain
So many things that money buys
But really nothing I can find
Like sunshine and love

And sunshine, blue skies and the river on a
Hot hot day
Moonlight and a good fight standing out
In the pouring rain

Like sunshine, blue skies and the river on
A hot hot day
Moonlight and a good fight, standing out
In the pouring rain
So many things that money buys
But really nothing I can find
Like sunshine and love
