

# Jessica Andrews, Whatever

I used to take you at face value  
You spoke I listened and the only thing missing was  
the truth  
Yeah promises promises  
Lines as honest as a three dollar bill  
You talk the talk  
But you don't walk the walk and Ive had my fill  
Going on like this is so absurd  
I'm sick of these words words words

[Chorus]

You say yes you say no  
You say come you say go  
You change just like the weather  
First you're up then you're down  
Say you cant hang around  
Then you promise me forever  
Whatever  
Save your breath I'm tuning you out  
Nothing I need to hear gonna plug my ears  
And sing real loud  
LA LA LA LA LA LA  
Baby talk if you want I don't care anymore  
I'm past the breaking point  
So I'm blowing this joint yeah I'm out the door  
I used to take it all so personally  
Now it sounds the same to me

[Repeat Chorus]

I used to take it all so personally  
Now it sounds the same to me

[Repeat Chorus]
