

# Jessica Folker, I Do

If you could look inside my heart,  
then you would know,  
your love has played the greatest part  
If you could see inside my mind,  
then you would know,  
I think about you all the time

No need to question  
You will have my affection

For better or for worse, for richer or for poorer,  
I promise - I do  
In sickness and in health, from now until forever,  
I'll always love you, and so with,  
all of my heart,  
till death do us part  
I do

If you could walk inside my shoes,  
Then you would know - know how much,  
I'm in to you  
If you could feel what I can feel,  
then you would know,  
I'm falling hard for your appeal

No need to question  
You will have my affection

For better or for worse, for richer or for poorer,  
I promise - I do  
In sickness and in health, from now until forever,  
I'll always love you, and so with,  
all of my heart,  
till death do us part  
I do

To have and to hold,  
through young and through old,  
in good or in bad times baby  
Yes I do, I do, I do  
So...

For better or for worse, for richer or for poorer,  
I promise - I do  
In sickness and in health, from now until forever,  
I'll always love you, and so with,  
all of my heart,  
till death do us part

I do

For better or for worse, for richer or for poorer,  
I promise - I do  
In sickness and in health, from now until forever,  
I'll always love you, and so with,  
all of my heart,  
till death do us part  
I do

I promise, I'll always  
I promise I'll always love you
