

# Jessica Simpson, My Wonderful

Time when I was down and out  
No lovin in my life  
This angel came and brought about  
A meaning of so right  
Took my dark and lonley days into the light  
With his loving ways

[CHORUS]

He's my wonderful  
Everything a girl could want to love  
And all I need  
Yes he's my wonderful  
He must have been sent from up above  
Just for me

I gotta have him close to me  
Each and every night  
To give me that security  
Of dreamin and delight  
Love has got a grip on me  
Oh so tight  
Hope he never lets go

[CHORUS]

Cause I don't ever want to be free  
From this love and care that more people will never see  
And at night I pray that I'll have my way  
And your love for eternity

[CHORUS]

No one could ever do for me  
The things he does cause

[CHORUS x2]

A time when I was down and out  
No lovin in my life  
This angel came and brought about  
A meaning of so right  
And took my dark and lonley days  
Into the light with his loving ways  
Oh Yeah  
I said he's everything  
All I need la la la la la...
