

# Jesu, Conqueror

All the colours that we saw they touched us  
All the trails that they made we followed  
We can be just like all of the others  
We have to be just like all of the others

All the spaces they made for us  
Are all filled up  
And they will deceive us and they will desert us  
But all our colours will always be with us  
And all our colours they will always be with us

All our colors will always be with us...
