Jesus And Mary Chain, Happy Place

I'm going back to a happy place All my life I've lived to taste Someone else's flavours on my tongue Cherry take me back to the start of it all Where everyone's up then everyone falls Almost could destroy me with her kiss Oh, I wish that I could feel And I feel too real For this grey moat And me, I'm drifting like the sun Down on everyone, the TV sky Save me Come and save me Come on touch me Come on and touch me Come on hold me Come on and hold me I live my life for something I can't see Let me take you in my summer dream
