

Jettie, Aimie Rain

oh this life seems so rare,
taking turns, giving lights when youre scared
but sometimes not, somethings wrong, some grow strong
sometimes not, somethings wrong, you grow strong.

I know this is rain
I know this is rain

oh I remember you as a kid
now youre older and the high heels fit now (down, sei l)

let me out, help me to fall
help me up, let me out, help me to fall... down.

I know this is rain
I know this is rain

the prescense of your face brings the sun
when september set the colors it seems so quiet

help me up, let me out, help me to fall
help me up, let me out, help me to fall down

I know this is rain
I know this is rain
I know this is rain
I know this is rain
