

Jettingham, Screwed Up

Everything I do I screw up, and everything I say is wrong
Everything I do I screw up, and everything I say is wrong
I can't do anything to please you
You've made me feel like this too long

But I wont feel like this for you
But I wont take this constant abuse
You always point your finger at me
Now I'm pointing one back at you

From the first time I met you
You always said that I was no good
From the first time I met you
You always said that I was no good
You'll never be more than a stupid garage band
Can do no right, but I wish you could

But I wont feel like this for you
But I wont take this constant abuse
You always point your finger at me
Now I'm pointing one back at you

I can't do anything to please you
You've made me feel like this too long
But I wont feel like this for you
But I wont take this constant abuse
You always point your finger at me
Now I'm pointing one back at you

Everything I do I screw up
Everything I do I screw up
Everything I do I screw up
Everything I do I screw up
Everything I do I screw up
