

# Jewel, I Won't Walk Away

A lonely street lamp  
I'm out on the street walking home  
A small pale blur  
Leaving trails like a snail I move so slow  
Time can bruise\*violent indigo  
Rush home to your arms  
You soothe my weary soul

Wrong or right be mine tonight  
Harsh world be damned we'll make a stand  
Love can bind but mine is blind  
Others stray, but I won't walk away  
Walk away

The clubs are full  
Of couples resisting being one  
They wear their youth  
Like badges that tarnish all too soon  
But we'll be a team  
Our two will be one  
Love will be our fortress  
When all else comes undone

Wrong or right be mine tonight  
Harsh world be damned  
We'll make a stand  
Love can bind but mine is blind  
Others stray, but I won't walk away  
Walk away

Sometimes the world don't make sense  
Small children filled with violence  
Let our light  
Shine through the night

Wrong or right be mine tonight  
Harsh world be damned  
We'll make a stand  
Love can bind but mine is blind  
Others stray, but I won't walk away  
Walk away

I won't walk away  
[repeated till fade out]
