

# Jewel, Quest For Love

From one world to another,  
There's so much to discover  
Feel so small inside,  
But courage has no size  
My heart knows where to go,  
And I will follow

More it's the little things that make a difference  
It's the quest for love that brings us life  
It's a dream of what could be  
That makes it all worthwhile  
Like you being by my side  
A love that only grows with time

Sometimes I lose my way,  
Unsure, I grow afraid  
There's no wrong I can't make right  
With you standing by  
It takes a friend like you

To remind me of what I knew

It's the little things that make a difference  
It's the quest for love that brings us life  
It's a dream of what could be  
That makes it all worthwhile  
Like you being by my side  
A love that only grows with time

I'll be strong, I'll be brave,  
From your world and back again  
We will go until the end, oh

It's the little things that make a difference  
It's the quest for love that brings us life  
It's a dream of what could be  
That makes it all worthwhile  
Like you being by my side  
A love that only grows with time
