

# Jhene, Pain

Ooohhh oh baby baby  
How could you lead me all this way and then cause me so much pain...  
Ooh Ah

(Verse 1:)

After all of the days and all of the nights that we had shared  
I could have swore that you would never do me the way you did  
And after all of the plans and memories that we had made  
Never thought you were capable of causing me so much pain

(Hook:)

What was your reasoning why, Said you were in love with me why (Oh why)  
I cried so many nights  
I tried to justify your actions, but it just ain't happenin (No)  
I need to know...Oh oh no  
I can't believe...

(Chorus:)

I can't believe  
That you hurt me  
How could you say you love me like you say then cause such pain  
Oh baby please can you tell me  
How could you lead me all this way and then cause me so much pain

(Verse 2:)

After all of the talks we had about marriage and having kids  
It seemed unlikely to me that you would ever do something like this  
And after all of those times I was there for you  
And all of those things that we been through  
I hope she was worth it babe  
I really can't stand this pain

(Hook:)

What was your reasoning why, Said you were in love with me why (Oh why)  
I cried so many nights  
I tried to justify your actions, but it just ain't happenin (No)  
I need to know  
Where do we go

(Chorus:)

I can't believe  
That you hurt me  
How could you say you love me like you say then cause such pain  
Oh baby please can you tell me  
How could you lead me all this way and then cause me so much pain
