

# Jill Sobule, Palm Springs

Went to the desert  
On a mission  
To have a vision  
Or write a song  
I left real early  
I left my cell phone  
I took the Prius  
It gets good mileage  
Something's gonna happen  
To change my world

I'm on the highway  
I pass the windmills  
I pass the outlet stores  
Soon I'll find the sacred places  
I've been searching for

Wild horses  
Hawks circling  
Gram Parsons, inspiration  
Big cactus  
Coyotes  
Something's gonna happen  
To change my world

When I got there  
To the motel  
It was different  
Than on the website  
It was crowded  
Mostly seniors  
There was a bar band playing "Bad, Bad Leroy Brown"  
So I went hiking  
It was so barren  
And it got too hot, so I turned around (Ooh)  
Went to the main drag  
I saw the statue  
Of Sonny Bono  
And he was smiling  
Something's gonna happen  
To change my world

Wild horses  
Hawks circling  
Gram Parsons, inspiration  
Big cactus  
Coyotes  
Something's gonna happen  
To change my world

Back on the highway  
Wave to the windmills  
The setting sun in my eyes  
Drive to the ocean  
That's where we come from  
I'll throw my troubles to the rising tide  
Something's gonna happen  
To change my world

Seahorses  
Sharks circling  
Brian Wilson, inspiration  
Smart dolphins  
Waves crashing

Something's gonna happen  
I said something's gonna happen  
(Ooh)  
I said something's gonna happen  
To change my world
