

Jim Ed Brown, To Be or Not to Be

To be or not to be in love with you which way is best for me I wish I knew
To see or not to see the things you do to be or not to be in love with you

You used to care for me but not anymore you've been so cold to me like never before
And you're not true to me you think I don't know
One question bothers me to stay or go
To be or not to be..
