## Jim Reeves, Overnight

(Overnight, Overnight, Overnight, Overnight, Overnight)

I met you on the Sunday night by that Monday morning Overnight although I wondered Overnight what's wrong with me Overnight love walked right in and shook me like a tree.

Oh, I sat down when I got home and gave my heart a warnin' Overnight I dreamed about you Overnight while count the sheep Overnight I felt for you so hard I couldn't sleep.

All night long I wished you were my own And when I came to I was huggin' you like a hound dog hugs a bone All night long my heart was standing still And when I got up I pitched myself to see if this was real.

Then you came by and told me dear the same sweet Monday morning Overnight you dreamed about me Overnight you loved me too Overnight we found the dream that really did come true.

(All night long I wished you were my own) When I came to I was huggin' you like a hound dog hugs a bone All night long my heart was standing still And when I got up I pitched myself to see if this was real.

Then you came by and told me dear the same sweet Monday morning Overnight you dreamed about me Overnight you loved me too Overnight we found the dream that really did come true.

Really did come true, that really did come true...
