

# Jim's Big Ego, The Music Of You

I ain't got no high notes  
And I don't get high on my lows  
And I don't have no fine clothes  
To dance around this stage  
And I don't live in a high rise  
And I won't drive a fly ride  
And I don't have a wild side  
I kind of act my age

But I get lonely just like everyone in this place  
And I know it's only time

All I want  
All I want  
All I want here  
Is the music of you

I've got no expectations  
I defy exaggeration  
I don't rely on some salvation  
To come and set me free  
I don't wait for a big break  
I won't make that mistake  
I made friends with heartache  
And plain reality

Because I get lonely just like everyone in this place  
And I know it's only time

All I want  
All I want  
All I want here  
Is the music of you

And I get lonely just like everyone in this world  
And I know it's only time

All I want  
All I want  
All I want here  
Is the music of you
