

# Jim Verraros, Forbidden Love

You're making me crazy, baby  
I can't figure you out buy maybe  
Make up your mind; tell me what you wanna do  
I wnana groove and move right next to you  
Close your eyes as my hands are on your hips  
Hips, lips, fingertips - let it rip  
Gie it to me; give me your love  
You like it soft, but let me show you rough  
We're getting closer - can you feel it?  
Can you handle it, can you take this?  
It's getting hotter, getting hard to breathe  
What you got, i want and i need

Forbidden love  
Such a dangerous game (do you want to play)  
Forbidden love  
Buy you know i got to play (in every single way)  
Forbidden love  
We can dance the night away  
Forbidden love, forbidden love

Come on, baby, let your body go  
I wanna take you down right to the floor  
Bodies shaking, love that move you're making  
You're breaking me, you've taken me  
I can feel your eyes weighing me down  
Turn around 'cause you don't make a sound  
Follow me, just take my hand  
Don't try, i'm gonna make you understand  
Holding you closer, holding you tighter  
It's getting hotter - let's make a fire  
Your body's burning love, let's turn the music up  
I got a thirst and i can't get enough

Forbidden love  
Such a dangerous game (do you want to play)  
Forbidden love  
Buy you know i got to play (in every single way)  
Forbidden love  
We can dance the night away  
Forbidden love, forbidden love
