## Jimmie's Chicken Shack, Let's Get Flat

To say that everything I knew was just a lie A love a hope a dream Well what was it to you

You can hold it in when you live But it comes out when you die The travesty of truth The liberty of lies

I see three sides to a coin As I flip it past my eye Toss from hand to hand You pick heads and I choose sides And you screams tails fool... Tales Well I've got a few that would pertain

It seems my love is much like a coin It lives through many needless exchanges Somehow it's shape I still sustain Somehow this shape I still sustain

Let's get flat

To say that everything I knew was just a lie
