

Jimmys Chicken Shack, Do Right

I don't know all the song lyrics, but I really want you guys to find out!

I need to know all the lyrics because I really like this song!

Don't make the bed up straight

I always stay out late

I never take you out

That's what you're all about

I always smell like smoke

Everything's just a joke

I never look at you

And you can hear me sing

These are not all the things

The many simple things

You can find wrong with me

What would you tell me please

What did I do?

What do I do?

What do I do?

What do I do right?

I don't know the rest, but please find the lyrics and post them! I would love to see them.
