

# Jimmys Chicken Shack, I Would

would carry around the world  
if right now  
everyone inside of them could hear the voice that sings

could i  
you know i would

carry around the world your memory today  
but will you hide the tears and turn and smile and walk away

and could i  
you know i would

could i  
you know i would  
would i  
you know i would

i carry around the world this memory today  
but i will not hide the tears or turn or smile or walk away  
just could i look into your eyes and have no fear  
you know i would

my only friend  
who is now gone  
don't take it to heart

my only friend  
even beyond you're still by my side  
and there is no mistaken  
let there be no mistaken  
let there be no mistaken

that could i look into your eyes and have no fear  
you know i would  
and could i look into your eyes and have no fear  
you know i would  
and there is no mistaken  
and there is no mistaken  
now there is no mistaken  
let there be no mistaken  
no mistaken  
from here on  
from here on  
from here on  
from here on  
you know i would
