

Jimmy Buffett, Bigger Than The Both Of Us

The moon's smiling over my shoulder
I know these same stars will shine when I'm older
So I'm keeping heaven on my mind
'Cause a good love is so hard to find

[Chorus:]

And it's bigger than the both of us
Deeper than the sea
Tossing on the water riding destiny
Bigger than the both of us
Farther than the eye can see
We're dancing, our souls are dancing
Infinity

You know there's a million ways to fail
But I know this isn't just a fairy tale
It's a one in million paradise
And I know love is the light in your eyes

[Chorus]

Bigger than the both of us
Our souls are dancing
Bigger than the both of us
Our souls are dancing
