Jimmy Buffett, Take It Back

(Jimmy Buffett, Matt Benton)

Open season on the open seas and Captain says no prisoners please Skull and crossbones on a background of black We ain't stealin' we're just takin' back

We ain't stealin' we're just takin' back Very simple plan of attack It's our job and a labor of love Take it home to the up above We ain't stealin' we're just takin' back Very simple statement of fact Call it pillage or call it plunder We're takin' it back from them boys down under

Hit us hard, took our treasure That was the worst thing they could do It will be our great pleasure To take it back from that captain kangaroo

Yo ho ho, and a bottle of suds It's a pirates fight we choose No we don't want a bucket of blood Just a cup is all we could use Just a cup

The sails are up and the bets are down Let's lighten up this harbor town By hook or crook or new design We're streakin' for that finish line

We ain't stealin' we're just takin' back Very simple plan of attack It's our job and a labor of love Take it home to the up above We ain't stealin' we're just takin' back Very simple statement of fact Call it pillage or call it plunder We're takin' it back from them boys down under

We ask ourselves when we get in a fix What would popeye do in a tight spot like this He'd race for his true love and easily win it In an old spinach can with a mast stuck in it

Lift us up, take us high Time to let our spirits fly Lift us up, take us high Let us sail until we die

Lift us up, take us high Let us float above the foam Let our sails fill the sky We are takin' our sweet treasure home

Take it back We're takin' it back Take it back!
