

Jimmy Dean, Hang Your Head In Shame

Don't your conscience ever bother you everytime you hear my name
Well you should go somewhere hide your face and hang your head in shame
Yes someone came along and took my place and you gave me all the blame
You should go somewhere and hide your little face and hang your head in shame
[fiddle]
Yes someone came along and took my place and you gave me all the blame
Oh you should go somewhere and hide your little face and hang your head in shame
And hang your head in shame
