

Jimmy Dean, Harvest Of Sunshine

A harvest of sunshine a sky full of blue
A haystack of happiness and buckets of dreams come true
And all the things in whole the world all that I wish for you
It's just a harvest of sunshine and a sky full of blue
(A harvest) a harvest (of sunshine) nothing but sunshine (and a sky full of blue)
And a great big sky full of blue
A haystack of happiness and buckets of dreams come true
Hey look and see though you may be one of one hundred and two
You've got a harvest of sunshine and a sky full of blue
