

Jimmy Dean, In The Same Old Way

In the same old way I still love you and the same foolish heart still beats for you
Nothing's changed about me since you walked out that day
And I still love you in the same old way
In the same old way your mem'ry haunts me
But I know in my heart you'll never want me
Yes you're gone but I still love you just like I did yesterday
Yes I still love you in the same old way
Oh I suppose that I should feel better the same time I know I never will
Cause I still love you and I can't change the way I feel
In the same old way I'm crazy bout you
Can't help wonderin' how I'm gonna live without you
We've said our last goodbye now you've gone so far away
And I still love in the same old way yes I still love in the same old way
