

Jimmy Dean, Let's Talk About Love

Let's talk about love all day long let's talk about happiness sing happy song
You'll put away the sadness and let sunshine in
Yeah let's talk about love love love that will never end
Just give me your hand and brother you take mine
And we're gonna have love that'll be so fine
Put away the teardrops and no things go wrong
Yeah let's talk about love love love all the day long
We can be happy wear the smile there'll be love love love if we'll only try
Let's talk about the sweet things that'll here to stay
Let's talk about love love love love love to live all day
[piano]
We can be happy wear the smile...
Can we talk about love love love love love to live all day
