

Jimmy Eat World, Watch The Fireworks

here you can be anything
anything that scares
i think that scares you
here, i've been here before
but only by myself, myself

i promised i'd see it again
i promised i'd see this with you now
(Repeat)

what giving up gives you
and where giving up takes you
i've had and i've been
here in center frame
here, there's only air
and just enough space to fit

i promised i'd see it again
i promised i'd see this with you now
(Repeat)

i said, said, say it out loud over and over
i said, said, say it out loud but what do i know?
i said, said, say it out loud over and over
i said, said, say it out loud over and over
i said, said, say it out loud but it did not help
i'll stop now
just enough so i can hear you
i stay up as late as it takes

i promised i'd see it again
i promised i'd see this with you now
(Repeat)

i said, said, say it out loud over and over
i said, said, say it out loud but what do i know?
i'll stop now
just enough so i can hear you
i stay up as long as it takes

i stay up as long as it takes

i stay up as late as it takes
i stay up as long as it takes
as long as it takes
as long as it takes
as long as it takes
i stay up as late as it takes
as long, it takes
