

Jimmy Eat World, Work

If you only once would let me
Only just one time
Then be happy with the consequence
With whatever's gonna happen tonight
Don't think we're not serious
When's it ever not
The love we make is give and it's take
I'm game to play along

All I can say
I shouldn't say
Can we take a ride?
Get out of this place
While we still have time

oh oh, oh oh oh
oh oh, oh oh oh

All the best DJs are saving
Their slowest song for last
When the dance is through
It's me and you
Come on would it really be so bad
The things we think might be the same
But I won't fight for more
It's just not me to wear it on my sleeve
Count on that for sure

All I can say
I shouldn't say
Can we take a ride?
Get out of this place
While we still have time
You want to take a ride?
Get out of this place
While we still have time
Yeah - We still have time

oh oh (ahhhhhhhh)
oh oh (ahhhhhhhh)
oh oh (ahhhhhhhh)
oh oh (ahhhhhhhh)

Can't say I was never wrong
But some blame rests on you
Work and play they're never okay
To mix the way we do

All I can say
I shouldn't say
Can we take a ride?
Get out of this place
While we still have time
You want to take a ride?
Get out of this place
While we still have time
We still have time

oh oh, oh oh oh
oh oh, oh
