

# Jimmy Nail, Between A Woman & A Man

There's a saying that I read  
Saying fools was easy led  
Saying all the boys are strong  
And all the girls just tag along

Well I don't know if all that's true  
All I know is I've found you  
So show me the difference if you can  
Between a woman and a man

I was washed up on your shore  
Couldn't take one heartbreak more  
The good lord answered all my prayers  
When he showed me to your door

Now as each new day arrives  
I thank God that I'm alive  
And that you helped me make a start  
To mend the pieces of my heart

You can't see it with your eyes  
And you can't hold it in your hands  
So show me the difference if you can  
Between a woman and a man

Show me the difference if you can  
Between a woman and a man
