

Jimmy Nail, Only Love

There's a feeling coming over
Getting bigger
Growing stronger every day
You can't turn your face or hide
Your head
But it's not gonna go away
With a little bit of caring
We can get it back to where it
Used to be
But if we take and if we take
Then take some
More we'll shake the nature
From the tree

As we walk this world alone
Only love can bring us home
Millions of children are born
Into hunger
Only love can bring us home

I can see it ever clearer now

In letters written big upn the wall
That of we don't ease up a
Little on the earth
We're gonna take a major fall
So if you're looking down and listening
We could use a heapin'
Helping from above
Because a hundred tons of hate
Can be negated
With a little bit of love

As we walk this world alone
Only love can bring us home
Millions of children are born
Into hunger
Only love can bring us home
Poor is the man who walks on is own
Some day we'll learn that our
Wells can be
Emptied and only love can bring us home
