Jimmy Needham, For Freedom

(Galatians 5:1-2)

O to be delighted by you
And to see the colors of your train
And to be freed by you
That would be that would be
That would be my claim to fame
So rejoice my friend because my friend
You've got a friend and friend indeed
It is for freedom he set us free

But simon says to fill your void With toy after toy after girl after boy After all isn't that what we were meant for Please believe me when I say It is for freedom he set us free

O poor us we sigh Pour us out I cry So we can be free

The bigger picture is there is a holy calling O how I'm slowly falling Falling falling in love And your water has been pouring out on me How could I be so naive It is for freedom it is for freedom It is for freedom he set us free
