

Jimmy Somerville, Come Lately

(Butcher / Somerville)

I've never felt such a need in me
Such a need as his
With hungry arms,
I gather all the worth he gives
It feels so good, you invert me
It delights me
You're so subversive
So sublime, so sacrosanct
Come lately
I can't get by without your love
Come lately
I can't get by without your love
I could not help
Falling for such a charming man
I realised something rare
When I found you
That's why I try to do the best
At what I can
You make me happy
Don't want to lose you
I've got to keep you on my side
Come lately
I can't get by without your love
Come lately
I can't get by without your love
What could I do, without you...
Come lately
I can't get by without your love
