Jimmy Somerville, Come Lately

(Butcher / Somerville) I've never felt such a need in me Such a need as his With hungry arms, I gather all the worth he gives It feels so good, you invert me It delights me You're so subversive So sublime, so sacrosanct Come lately I can't get by without your love Come lately I can't get by without your love I could not help Falling for such a charming man I realised something rare When I found you That's why I try to do the best At what I can You make me happy Don't want to lose you I've got to keep you on my side Come lately I can't get by without your love Come lately I can't get by without your love What could I do, without you... Come lately I can't get by without your love
