

# Jive Jones, I Belong

Ohh..

Heaven knows all that glitter isn't gold  
to hold u close, to deny the truth  
I wish I could  
but I cancel if you would  
please kiss me now, and I'll belong to you  
10,000 miles of road will never change me  
i guess were better off this way

Chorus:

i belong  
even when we're far from home  
yeah i belong  
i belong, to you  
and i belong, even when our youth is gone  
yeah i belong  
i belong, to you

shooting stars in the backseat of your car  
just one more night, that I lied to you  
ooohhh....  
sticks and stones will try to smash all that we know  
so hold me now  
and i'll belong to you  
10, 000 miles of road will never change me  
i guess were better off this way

Chorus:

i belong  
even when we're far from home  
yeah i belong  
i belong, to you  
and i belong, even when our youth is gone  
yeah i belong  
i belong, to you

ooohh....

yeah..hoo...noooooo.....  
10,000 miles of road will never change me  
i guess were better off this way

Chorus:

i belong  
even when we're far from home  
yeah i belong  
i belong, to you  
and i belong, even when our youth is gone  
yeah i belong  
i belong, to you

to you, to you  
to you  
(fades out)
