

JLS, Billion Lights

It feels so beautiful baby
And that's alright
We live for miracles baby
Witness tonight

So why don't you touch me?
So I, so I can feel that connection
Don't be afraid of getting high
'Cause up is the only direction

It's time to let you know
Can't hold it in no more
It's burning deep inside and we gotta let it go
Poppin for us, turn it down
We're never growing up
So baby let me hit some more
Come and get it

We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it
Flashing in your eyes
Come on and get it
I swear I might start a fight
Come on and get it
Million miles an hour
Come on and get it
And they can't stop, devour
Come on and get it
We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it

Oh oh oh oh oh
Come and get it
Oh oh oh oh oh
Let's go!

It's just that freedom when I taste it
No drink, no pills
Don't mind that ruckus when I'm makin
We're livin for the thrill

So why don't you hold me?
So I, so I can feel that connection
Don't be afraid of getting high
'Cause up is the only direction

It's time to let you know
Can't hold it in no more
It's burning deep inside and we gotta let it go
Poppin for us, turn it down
We're never growing up
So baby let me hit some more
Come and get it

We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it
Flashing in your eyes
Come on and get it

I swear I might start a fight
Come on and get it
Million miles an hour
Come on and get it
And they can't stop, devour
Come on and get it
We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it

Oh oh oh oh oh
Come and get it
Oh oh oh oh oh
Come and get it
Oh oh oh oh oh

We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it
Flashing in your eyes
Come on and get it
I swear I might start a fight
Come on and get it
Million miles an hour
Come on and get it
And they can't stop, devour
Come on and get it
We ignite the sky
Come on and get it
A billion lights tonight
Come on and get it
