

# Joan Armatrading, Turn Out The Light

Up and down  
And all around  
I've been looking for you  
In and out  
And all about  
I've been reaching for you

I've got to tell you baby  
Now my mind is made up  
Things have looked bad  
But now some years later  
We still

Turn out the light  
I'm gonna love you  
Tonight

Many lover  
Have come and gone  
Some I miss  
And some I don't  
Some were handsome  
But none were plain  
My good fortune I suppose

I wanna tell you baby  
Since I took up with you  
I mostly think of love and  
That means you

Let's urn out the light  
I'm wanna hold you  
So tight
