

# Joan As Police Woman, Start Of My Heart

Start of my heart

You changed me  
You chained and taught me  
The damage I've done  
Can show me the way to my heart  
Sing out my love  
'cause I've been her before and silence don't get you a thing  
I learned this on the way to my heart  
It was with you riving ton deep September  
We took the long way and your hand and lead me home  
Like a ray you woke my heart  
With your northern lights with your soul  
Yes you saved me  
Origami doll i wonder if you'll do it again  
Please do it again  
I'll thank you from the deep of my heart  
I thank you for the start of my heart
