

Joan Jett And The Blackhearts, Hold Me

(Joan Jett/Kenny Laguna/Ricky Byrd)

No tears for us tonight, we've really got to try
Everybody's got their problems
And secrets that they try to hide
No fight or fuss tonight, be gentle as you can
Everyone thinks I'm stronger,
Much stronger than I am

I get scared and lonely
And I need someone to hold me
I get scared and lonely
And I need someone to hold me
Just like you do

There's no place left to go
When you're runnin' from yourself
It's easy when you draw conclusions
While you're lookin' at someone else
I tell the truth to you we've really got a lot
There is no time for sympathy
I think we ought to take a shot

Honey, I get scared and lonely
And I need someone to hold me
I get scared and lonely
And I need someone to hold me
Just like you do

Just take my hand, we'll find our way through
We won't be afraid 'cause
We've got each other to hold on to

Honey, I get scared and lonely
And I need someone to hold me
I get scared and lonely
And I need someone to hold me someone like you

I get scared and lonely
And I need someone to hold me, just like you do
