

# Joan Jett, Push & Stomp

When I'm feelin' low need to let it out  
I do a little dance I call the push & stomp  
I said hey, I do the push & stomp  
Saw you on the street ya looked a little down  
Come along with me I'll turn you right around  
I say hey let's do the push & stomp  
Ya just a shake shake shake,  
Till your knees are weak  
Come on move your hips  
To the drummers beat  
Yea push yourself till you're ready to drop  
But ya do it again you can never stop  
I taught ya  
Everybody needs somethin' when they're blue  
Ready to unload I'm Comin' back for you  
I said hey come one and push & stomp  
You just a shake shake shake  
Till your knees are weak  
Come on move your hips  
To the Crystal beat  
Push yourself till you're ready to drop  
But ya do it again you can never stop baby  
Don't let it worry you if ya look a little strange  
You'll feel so good inside  
Forget yourself for a change oww  
When I'm feeling low need to let it out  
I do a little dance I called the push & stomp  
I said hey let's do the push & stomp  
Ya just a shake shake shake  
Till your knees are weak  
Come on move your hips  
To the jungle beat  
Yea you push yourself 'till you're ready to drop  
But you do it again you can never stop  
You just shake shake shake  
Till your knees are weak  
Come on and move your hips to the drummer's beat  
I said hey I do the push & stomp  
I said hey let's do the push & stomp  
I said hey come on and push & stomp
